

# Hay Group

## Project

Hay Group refurbished the front of house areas of their Melbourne office, including reception, boardroom with double glazed partitions, joinery, finishes, acoustic improvements and new meeting rooms.

To ensure the global management consultancy remained operational for the duration of the project, Formula erected hoarding to the reception area and completed the works with minimal disruption to Hay Group who remained on site.

The custom reception desk and joinery required hand finishing and careful installation to deliver its unique aesthetic.

Services included AV, access control, data, electrical, fire and mechanical.

## Address

Level 27, 360 Collins St, Melbourne 3000

## Size
