Holy Spirit Seminary

Project

The Holy Spirit Seminary is the place of learning and spiritual advancement for the seminarians that will take up their spiritual mission in Queensland and beyond.

The existing facility did not meet the Seminary requirements and alterations to the Administration Building and Rectors Office were completed along with the addition of the new Learning Centre and car park. The upgrades provide new staff amenities, archives, reception, auditorium, function centre, commercial kitchen and dining space.

Completed on time and under budget, works included site survey, civil works, footings and slab, structural steel works, block works, roofing, windows, internal fit out all services, floor finishes, painting, joinery and landscaping.

Address

Approach & Earnshaw Rd, Banyo

Size

Site area: 72,840m², Learning Centre: 675m², Administration 300m², Rector Office: 50m²

Duration

40 Weeks

Design

AB+M Architects

"I am delighted with the professional and courteous manner in which Formula has approached this building project. Formula's eye for detail and their vigilance to quality and safety has ensured that the build is of the highest standard and has been completed in a timely manner with optimum satisfaction." **Monsignor Anthony Randazzo - Rector - Holy Spirit Seminary**
