

Mater Children's Repurpose

Scope

Following the opening of Lady Cilento Children's Hospital, Mater Health Services sought to repurpose the former Mater Children's Hospital. The project focused on the following areas of service:

- Neurosciences - Neurosurgery and Neurology;
- Mater Children's Private Hospital (MCPH);
- Adolescent and Young Adult

Project

Formula completed both Stage 1 (Construction Consulting) and Stage 2 (Building Works) of the project.

The project scope incorporated a staged delivery process and 21 separable portions all within the one contract and at differing completion dates.

Level 1: Stanley Street entry point lift lobby; Patient Drop off point with awning

Level 2: Reception / Admissions; Consulting Suites (shell space)

Level 3: Consolidation of Allied Health to Eastern side; Consulting Suites (shell space); Relocated Conference Rooms

Level 4: MAYAC/ENT/Neuroscience Clinics; Respiratory/Sleep Medicine/Lung Function Lab; Epilepsy Unit; MAYAC Cafe & Training Centre

Level 5: ICU for Adult and Paediatric; Welcome Lounge; MCPH Day Surgery Area

Level 7: Ward 7 South - MCPH; Ward 7 East - MAYAC; Medical Day Unit; MAYAC Emotional Health Unit

Level 8: Neurosciences publicly funded; Neurosciences privately funded; Stroke Centre

Mater Adults Hospital (MAH) Level 4: Out Patient Department practice, the adjoining OTs were kept free of contamination and a new standard was achieved in risk mitigation on an OT construction project.
