

Inbox Workspace

Project

With many businesses now looking for flexible alternatives to traditional office tenancies, Formula delivered a stylish co-working space for Inbox Workspace. At Inbox, local businesses can enjoy use of the workspaces meeting rooms, workstations, conference spaces and kitchen amenities, all under a flexible membership arrangement.

Designed by Guymer Bailey Architects, the stylish finishes fitted by Formula are comparable to any high-end inner city fitout. The Formula team installed state-of-the-art data, security, services and amenities to support workplace collaboration and productivity.

Inbox's open-plan layout takes inspiration from the latest in activity-based workplace design, and acoustics were a primary concern when delivering this fitout. Formula worked hard to ensure acoustic privacy would be maintained in meeting rooms and conference spaces, while also delivering on our client's brief for a comfortable, warm and inviting space.
