

# HWL Ebsworth, Brisbane

## NEAT PARTITION SYSTEM

### Scope

Supply and install Neat, complete with switchable glass to the premium three storey fitout.

### Project

In planning the new office at the iconic 480 Queen Street, HWL Ebsworth sought a workplace designed to maximise efficiency, productivity and collaboration and reflected the calibre of their practice. The result is a visually stunning, premium grade fitout that maximises the 360° views of Brisbane and surrounds.

Formula's Neat office partitions were installed throughout the three floor office, providing the fit out the high level of detail the client and designers were seeking. Switchable glass was installed to the multi-function space allowing privacy when needed, without compromising the breathtaking views from reception all the way to Moreton Island.

In total, 1,262Lm of full height plaster board Neat partition walls and 724Lm of full height glass Neat partitions were installed.

### Address

Level 17,18 & 19, 480 Queen Street, Brisbane

### Design

Graham Nicholas

*"The Formula team were great to work with, nothing was too difficult and they always jumped at the opportunity to assist. Our collective client HWL Ebsworth were very pleased with the final project and level of finish."*

Mark Shephard – GRAHAM NICHOLAS
